Clinical tools

This section includes CF-5A’s Intervention tools and resources for providers, staff and patients. There are training resources for providers and clinical staff, which include descriptions of smoking cessation treatment options and resources for additional assistance and counseling. This section also includes smoking cessation resources for patients, which are available in both English and Spanish.

Cessation resources [1]

Medications for smoking cessation [2]

Arranging follow-ups [3]

UCSF CF-5A’s Support and contact [4]
